Table 8 - Split Samples 071216.pdf

Michelle / Jason,

Here is a replacement draft of Table 8 with results for our 13 split samples at the site; more than just SVOCs now.

Since these are all from the same property I will add a sampling location map to my to-do list. If you want RSLs or other screening limits added to the table let me know.

Ryan

Hello,

Better late than never? Attached is the split samples summary table. I do not have locations for these, although I can add them pretty quickly if you'd like.

I know I'm overloading you but the lab finally came through with data we've been missing. This report is for investigative split samples. It will require a new table. We were getting questioned about it this morning so it is also high priority for a summary table, but all the air and soil comes first. Please start preparing a new table for this one in the morning.

Thanks!
